Clear sequencing of content	The lessons are structured to introduce new words gradually, and then revisit and reinforce them over time. This repetition helps ensure it retains the vocabulary long-term. When it comes to grammar, the program follows a slow and steady approach—introducing one new main grammatical concept every two weeks. This gives enough time for students to practice and apply what they’re learning without feeling lost or rushed. The curriculum also balances other key aspects of language learning, such as pronunciation

	(phonics), different ways of practicing (speaking, listening, reading, and writing), and reviewing past material to strengthen understanding.
Links to Careers	In this unit there is not anything linked to careers
Diversity and Inclusion	inclusion and representation are integrated into the Schemes of Work (SOW) and lesson resources breaking cultural barriers by familiarising students with cultural, geographical, political, historical and vocational aspects of areas in which the target language is spoken.
